Lacor - A brand that has been manufacturing cookware for half a century with its superior introduces a new range of products for 2nd half of 2007.

Introducing the Luxe Pressure Cooker for catering, made of 18/10 stainless steel, is designed to meet any professional requirements. It is user-friendly and features a sandwich-type diffuser bottom valid for all types of kitchens, including induction. It comes with a pressure selector for adjustment to each product's needs.

Food processing will be easier now with our new Lacor "V" Mandoline. With 5 different slicing inserts, you can choose the thickness and sizes of your cuts. It comes with a rack for easy storage of the inserts. Moreover, it is dishwasher safe. Other than the new Mandoline, you can also choose to use to juice, slice and grate with the new multi-slicer or mince your meat effortlessly with the new meat mincer.

New bakeware products are also added to complete the range. Added to the family are new pastry brushes, tubes sets, etc. Lacor bakeware provides you with just what you need to get enjoy delicious breads, cookies and cakes.

Our new oil sprayer enables you to sprinkle oil onto your salad or food without brushes. No more messy grease and the easy spray reaches all angles.

Another new addition to the family is the new Lacor portable induction cooker. The "touch sensor" operation with no buttons makes surface cleaning easy. It consists of 6 power levels equipped with the blocking function for children; the timer and automatic shut off functions help to ensure the safety of your kitchen.

Contact our sales personnel now for more information of our new Lacor products today!
